

Business Systems Project Manager, Contract, Drogheda

Daysha Consulting are currently recruiting for a strong Business Systems Project Manager to join our consultancy team on a contract basis. This is a part-time (3 days a week) 3 month contract with potential for follow on work.

Our client requires a Project Manager who can work with an in-house IT department to help plan and enhance an interaction between and existing 3rd party distribution company and themselves.

The project manager will be responsible for

- Defining the project timelines
- Documenting the changes to rules and definitions of the data sets
- Working with the operations and finance departments for defining the potential changes to current processes
- Developing a test suite in conjunction with IT for the interfaces
- Managing the testing process

Requirements:

The ideal person should have a strong background in implementation of software applications and previous experience in building interfaces is desirable.

3-5 years' experience in a business analyst / process role is expected. A solid understanding of software development so as to be able to discuss potential software issues with IT.

The consultant must be strong on documentation and should be inquisitive enough to draw out of people a full picture of current and 'to be' processes. A project management qualification such as PMP or Prince 2 is desirable.

A background in the FMCG would be a distinct advantage.

Client specific:

- Experience in a rapid, high growth environment with ability to take ownership of tasks and see through to conclusion
- Positive, proactive, can do attitude to problem solving and issue management
- Clear concise communicator who backs up reports with factual data points

Section 3 – Summary and call to action

This position offers a great opportunity to work with a high visibility client in a dynamic industry. If interested please reply with CV and summary of relevant experience.

NOTE: You will need to be authorised to work in Ireland and be available to commence work on these projects in the very near future. Please confirm in your response that you can meet both of these requirements.
