

Daysha Consulting are currently recruiting for a strong Software Development Project Manager to join our consultancy team on a contract basis.

We are currently seeking a Software Development Project Manager to manage enhancements and improvements at one of our key clients.

You must be an established project manager with a proven track record in all aspects of delivery from small development bug fixes to large scale system improvements. Expert in project planning, scheduling and budget control with a strong emphasis on customer service management, SLA and experience of multiple delivery methodologies

- 10 years + experience in a similar project management role, preferably in a fast paced service delivery environment.
- Experience with delivering projects following the Agile Development Methodology
- Experience in managing multiple projects concurrently
- Extensive hands-on experience in producing detailed project schedules, extrapolating work break down structure, and resource requirements and tracking to schedule.
- Exceptional communication skills with fluency in both verbal and written English.
- Experience working with Technical Product Management Teams, experience and exposure to the following technologies, .Net, Java App, J2EE, SQL, Client server based environments
- Ability to work with and manage 3rd party vendors
- Excellent communication and relationship management skills
- Strong organizational skills to structure and control complex projects

- Experience in a rapid, high growth environment with ability to take ownership of tasks and see through to conclusion
- Positive, proactive, can do attitude to problem solving and issue management
- Clear concise communicator who backs up reports with factual data points

Section 3 – Summary and call to action

This position offers a great opportunity to work with a high visibility client in a dynamic industry. If interested please reply with CV and summary of relevant experience.

NOTE: You will need to be authorised to work in Ireland and be available to commence work on these projects in the very near future. Please confirm in your response that you can meet both of these requirements.
