

Performance Test Engineer QA / Contract/ Dublin City Centre

Daysha Consulting are currently recruiting for a strong Performance Test Engineer QA to join our consultancy team on a contract basis.

As a Performance Test Engineer you will be responsible for performance test planning, script creation, scenario building, test execution, results analysis and diagnosis of Microsoft and JAVA technology based Enterprise level solution.

Responsibilities:

- Responsible for planning and execution of Performance test cases, scenario building, execution and analysis.
- Working with software developers, system engineers and DBA's to identify and resolve bottle-necks and optimize system.
- Adherence to all QA processes and procedures
- Work with outsourced QA partners as part of a global test team
- Aid in the setup and maintenance of test environment hardware and software to support the requirements.
- Assist with training and support of other internal/external test team members.
- Provide performance test expertise to the development team and offshore partner
- Work with project bug database and database workflows.
- Produce Performance Test Engineering Reports
- Some functional testing of application will be required

Qualifications

- Bachelor's degree in Computer Science, or four year degree, or equivalent experience
- A minimum of three years Performance Testing experience.
- Extensive performance test tool experience required (HP LoadRunner, Borland SilkPerformer, Rational/IBM, Radview, OpenSTA, JMeter_etc.).
- Requires thorough knowledge of testing methods and the software development lifecycle
- Must be highly process orientated
- Requires excellent familiarity with Windows, Solaris and Linux Operating Systems and hardware
- Requires familiarity with generic Test management systems and defect tracking databases.
- Requires good problem-solving and analytic skills
- Requires ability to work with minimal guidance
- Previous experience working on large scale .Net/J2EE development projects required
- Requires strong organizational, communication, and administrative skills.
- Excellent interpersonal and written/verbal communications skills
- Pro-active, self motivated, results oriented

This position offers a great opportunity to work with a high visibility client in a dynamic industry. If interested please reply with CV and summary of relevant experience.

NOTE: You will need to be authorised to work in Ireland and be available to commence work on these projects in the very near future. Please confirm in your response that you can meet both of these requirements.
