

Senior .Net Deployment Engineer/ Contract/ Dublin City Centre

Daysha Consulting are currently recruiting for a strong Senior .Net Deployment Engineer to join our consultancy team on a contract basis.

As a Senior Deployment Engineer you will lead and manage our client's development process automation and installation/deployment strategies for a new large scale application suite.

Responsibilities

- Provide technical leadership to internal and external software development teams in all aspects of application build and installation
- Day to day liaison with internal stakeholders and managing installation requirements for test environments
- Work with key stakeholders such as field engineers supporting real world customer installations to define and build installation tools.
- Contribute to the architecture and design of the application, including areas such as infrastructure and virtualization
- Assist in defining structured practices especially in source code management, build and release management

Skills

- ASP.Net experience (.Net 4.0 and VS 2010)
- Knowledge of TFS (Team Foundation Server) and CI (Continuous Integration)
- Experience of Microsoft SQL Server 2008
- Experience of Microsoft Visual Studio 2010, Team Suite
- Experience of Internet Information Services 6/7
- Experience of Windows 2008
- Experience of leading / managing engineering resources
- Experience in managing and working with third party development teams
- Possess excellent communication skills, the drive to succeed and work independently and on a team, with the ability to multi task, and deliver quality results
- M.Sc. in Computer Science or B.S. and equivalent experience

This position offers a great opportunity to work with a high visibility client in a dynamic industry. If interested please reply with CV and summary of relevant experience.

NOTE: You will need to be authorised to work in Ireland and be available to commence work on these projects in the very near future. Please confirm in your response that you can meet both of these requirements.
